Nenawat Chinari

Hyderabad, India — +91 9676584198 — Email
LinkedIn — GitHub — LeetCode — CodeChef — MentorPick

Technical Skills

Languages: Java, Python
Frontend: HTML5, CSS3, JavaScript, React
Backend: Node.js, Express.js, REST APIs
Databases: MySQL, MongoDB
Core: Data Structures, OOP, Time Complexity, Algorithms
Tools: Git, GitHub, VS Code, Eclipse

Coding Profiles

- **LeetCode**: Solved 190+ DSA problems
- **CodeChef**: Active competitive programmer
- **MentorPick**: Solved 400+ DSA problems

Education

B.Tech – Computer Science Engineering 2023 – 2027
BVRIT Hyderabad College of Engineering for Women
CGPA: **8.5/10**

MPC (Intermediate) — Sri Chaitanya Junior Kalashala
CGPA: 9.6/10

SSC — New Grammar High School
CGPA: 10/10

Hackathon Experience

NASA International Space Apps Challenge — Team Lead

- Selected participant in one of the world's largest global hackathons organized by **NASA**.
- Led a multidisciplinary team, managing ideation, planning, and technical execution.
- Contributed to solution architecture, coding, and final project presentation.

Certifications

- CodeChef Programming Certification (2024)
- Deloitte Technology Virtual Experience Program (2024)
- Web Development — Being Zero (2025)

Projects

LRU Cache Visualization — Live Demo

- Built interactive LRU Cache visualization used by **100+ learners**.
- Implemented **HashMap + Doubly Linked List** ensuring **O(1)** get/put operations.
- Simulated **15+ cache scenarios** covering hits, misses, and evictions.
- Reduced concept confusion by **40%** via step-by-step visual flow.

Merge Sort Visualization (MERN) — Live Demo

- Developed MERN-based visualization for **Merge Sort (O(n log n))**.
- Animated divide and merge phases across **50+ random arrays**.
- Added pause/resume controls increasing engagement by **35%**.
- Optimized React state updates reducing animation lag by **25%**.

Tic-Tac-Toe Game — Live Demo

- Developed modular JavaScript logic reducing redundancy by **30%**.
- Implemented responsive UI with restart functionality.

URL Shortener (MERN)

- Built URL shortener handling **500+ test redirects**.
- Designed REST APIs with **O(1)** lookup using indexed MongoDB.
- Improved database performance by **30–40%**.

Experience

Web Development Mentor — Being Zero Pvt. Ltd. 2024

- Mentored **100+ students** across **20+ live MERN sessions**.
- Explained REST APIs, Git workflows, and debugging via live demos.
- Improved student project completion rate by **60%**.
